

Custom Quotes – Appliance Panel Service FAQ

Q: Do I need appliance panels?

A: We offer a simple appliance panel lookup service (dishwasher, refrigerator, compactor, etc.) for certain product lines. Provide us with the appliance brand and model number and our Custom Quote Technical Experts will do the research to determine the correct dimensions, and we will stand behind the fit! Decorative appliance panel requests can be submitted at

www.yorktownecabinetry.com/myquote

Q: Do I need to send you Spec Sheets?

A: No, please do not send us spec sheets. Sending us additional information besides the appliance's brand and model number will cause delays.

Q: Will the backer and spacer panels be attached at the factory?

A: Yes (if required by the appliance manufacturer). Any routing for hinge clearances must be done at the jobsite by a qualified installer.

Q: Will the back of my appliance panel be finished?

A: Yes

Q: Do I need to specify the design style?

A: Certain Sub Zero and GE models have different design style options available; we will contact you if the design style isn't specified.

If you have any other questions about appliance panel styles or applications, the Custom Quote team is happy to answer them and make sure you have the information you need!

Phone: (800)-768-0635

Hours: M-F 8:00am– 4:30pm

To take advantage of our Appliance Panel Service, please visit www.yorktownecabinetry.com/myquote and fill out the form completely. For the Starting SKU, please provide us with the appliance brand and model. Please do not send any spec sheets.
